THE CHEECHOO GOLD PROJECT
AEMQ’S 2016 “DISCOVERY OF THE YEAR”

Dominique Doucet, Eng.
Founder & CEO
Sirios Resources
This document contains forward-looking statements, which reflect the current expectations of the Company with respect to future events. To the extent that any statements in this document contain information that is not historical, these statements are essentially looking statements and can often be identified by the use of words such as "expect", "anticipate", "estimate", “project", "intend", "plan", and "believe".

Forward-looking statements underlie risks, uncertainties and other factors that could cause actual results to differ from those expressed or implied by such forward-looking statements. There are several factors that could cause such differences, including volatility and sensitivity to metal prices on the market, the impact of changes in the level of exchange rates of foreign currencies and interest rates, imprecision of reserve estimates, environmental risks including increased regulatory restrictions, unexpected geological conditions, adverse mining conditions, regulatory changes and government policies, including laws and policies, and the inability to obtain necessary permits and approvals from government authorities, and other risks associated with the development and operation.

Although the Company believes that the assumptions underlie in the forward-looking statements are reasonable, they should not unduly relied due to they apply only as of the date of this document. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether they should or should not be revised because of new information, future events or otherwise, unless required by applicable securities laws.
• Eeyou Istchee Baie-James, Québec
• 100 km north of Nemaska
• 200 km south-east of Wemindji
THE CHEECHOO PROPERTY

• 145 claims (75 km²)
• Less than 15 km from Goldcorp’s Éléonore mine
• 100% owned by Sirios (with 2.5 to 4% NSR)
• 15 M$ Investment
• Opinaca meta-sedimentary subprovince (2700-2648 Ma)
• La Grande volcano-plutonic subprovince (2880 Ma)
• Context similar to Éléonore
• Tonalite & pegmatites, in contact with paragneiss and meta-wacke

• Sulfides (traces – 1%)

• Scheelite (W)

• QZ-FP veinlets

• Frequent visible gold
• 50,000 m of drilling (196 holes)
• 3,000 m of channel sampling
• 57 holes with borehole surveys
• 50,000 m of drilling (196 holes)
• 3,000 m of channel sampling
• 57 holes with borehole surveys
• 50 m spaced drilling in the main area
STRETCH OF THE GOLD ENVELOPE (>0.2 g/t Au)

- Huge low-grade volume with multiple high-grade intervals
- Frequent visible gold (75% of drillholes)
STRETCH OF THE GOLD ENVELOPE (>0.2 g/t Au)

- Huge low-grade volume with multiple high-grade intervals
- Frequent visible gold (75% of drillholes)
- > 1 km x 500 m
- At least 650 m in depth
DRILLHOLES 128-136-138-139 SECTION
"JORDI" HIGH-GRADE ZONE

15.7 g/t Au (4.7 m)

3.1 g/t Au (4.7 m)

14.9 g/t Au (3.7 m)

14.1 g/t Au (7.1 m)

56.4 g/t Au (8.2 m)
Metallurgical tests (2015):

- Free gold, often coarse
- Easily recoverable

Recovered by Gravity (74%)

Recovered by Leaching (18%)
EXPLORATION & MINING DEVELOPMENT EXPERTISE

- **Dominique Doucet**, President
  - 30+ years experience in exploration

- **Nicole Gauthier**, Exploration manager
  - 20+ years experience in exploration

- **Roger Doucet**, Technical advisor
  - Bousquet 1 and Doyon gold discoveries
  - Ex- Agnico-Eagle exploration manager

- **Louis Martin**, Technical advisor
  - Development of the Norlatic, Kierens and Gold Hawk gold mines

- **Michel Bouchard**, Director
  - Bouchard-Hébert gold discovery
  - Ex- Clifton Star and Cadiscor CEO
ROCK-SOLID FUNDING

Goldcorp 18%
Directors and trustees 11%
Funds, corporations* 24%
Others 47%

Market capitalization 35 M$
Working capital 4 M$
Common shares 136 M
Warrants 0,7 M
Options 8 M

* CDPQ, Osisko, SIDEX, SDBJ, FSFTQ, CCPME, Cree Mineral Exploration Board, Golden Valley, Golden Tag

As of May 8, 2018
### UPCOMING STEPS

<table>
<thead>
<tr>
<th>Year</th>
<th>Activities</th>
</tr>
</thead>
</table>
| 2018 | - Forest road  
      - Permanent camp  
      - Metallurgic studies |
| 2019 | - Resource estimation  
      - Impact studies  
      - Definition drilling |
| 2020 | - Definition drilling  
      - Pre-feasibility study |
Thank you!
